

Summary

In June 2025, 12.7K metric tonnes (t) of humanitarian aid processed through the UN2720 Mechanism were delivered to Kerem Shalom/Karem Abu Salem or Erez West/Zikim crossings. Since the limited resumption of humanitarian aid movements on 19 May, all UN-manifested aid has been tracked and monitored by UN2720 through a combination of on-the-ground Monitors and cross-verification with partners. UN2720 Monitors continue to verify the collection and delivery of aid to its intended civilian destination within Gaza, subject to access permissions.

Out of the total 111.7K t overall aid delivered through the Mechanism, food constitutes most of the consignments (74%) followed by shelter items (18%). As of 30 June, a total of over 105,000 t (over 151,000 pallets) of aid are in the pipeline of the UN2720 Mechanism, approved by COGAT (including Ready to Dispatch) but still pending delivery to Gaza.

UN Security Council Resolution 2720 (2023) mandated the establishment of the UN2720 Mechanism for Gaza with the objective of accelerating the provision of humanitarian relief consignments to Gaza. The UN Office for Project Services (UNOPS) is responsible for the operation and management of the UN2720 Mechanism for Gaza. Data collection for the Cyprus Maritime Corridor route started on 26 April 2024. Data collection for the Jordan Corridor and other routes started on 1 July 2024. This report presents data on aid delivered to Gaza through the UN2720 Mechanism, not the totality of aid to Gaza. The numbers expressed in this report reflect data available and are subject to change reflecting the movement of consignments and the dynamic nature of the context. All data as of 30 June 2025.

* "Under process" is the number of requests currently under Desk Review by the Mechanism or pending a decision by COGAT, and does not include approved, rejected, or cancelled requests.

** Critical Humanitarian Items (CHI), considered 'dual use' items by Israel.

*** From time request received by the Mechanism to time request approved by COGAT. Includes requests returned by COGAT for more clarification prior to approval.
